Allowable Subject Matter

1.0 The present invention is directed to a communication device which determines the location of the recipient in order to determine the time zone in order to timestamp the message that is sent. The closest prior art Ablay (U.S. Patent No.: 5,408,683) teaches keeping track of the location of the sender and time stamping the message based upon the location time zone of the sender. The closest prior art, Ablay (U.S. Patent No.: 5,408,683) does not either singularly or in combination anticipate or render obvious the following claim limitations:

“detecting location of a given recipient; determining the time zone associated with a detected location of the recipient; and creating a time-stamp for said message using said determined time zone” as claimed in claim 1.

“determining a second time zone in which the mobile recipient is located; creating a time-stamp based on said second time zone, and sending said time-stamp and said message to the mobile recipient” as claimed in claim 7.

In addition:

Claim 2 is allowed because it is dependent upon claim 1.

Claims 8-10 are allowed because they are dependent upon claim 7.

Conclusion

2.0 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Wilson whose telephone number is 571/272-3075.

The examiner can normally be reached on M-F (8:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chau T. Nguyen can be reached on 571/272-3126. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
